The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to make good faith efforts to meet targeted county employment goals established in accordance with N.J.A.C. 17:27-5.2.

The contractor or subcontractor agrees to inform in writing its appropriate recruitment agencies including, but not limited to, employment agencies, placement bureaus, colleges, universities, and labor unions, that it does not discriminate on the basis of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job related testing, as established by the statutes and court decisions of the State of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

In conforming with the targeted employment goals, the contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and layoff to ensure that all such actions are taken without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

**AMERICANS WITH DISABILITIES ACT OF
1990
Equal Opportunity for Individuals with
Disability**

The contractor and the City of Vineland, (hereafter "City") do hereby agree that the provisions of Title 11 of the Americans with Disabilities Act of 1990 (the "Act") (42 U.S.C. SJ 21 01 et seq.), which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated pursuant there unto, are made a part of this contract. In providing any aid, benefit, or service on behalf of the City pursuant to this contract, the contractor agrees that the performance shall be in strict compliance with the Act. In the event that the contractor, its agents, servants, employees, or subcontractors violate or are alleged to have violated the Act during the performance of this contract, the contractor shall defend the City in any action or administrative proceeding commenced pursuant to this Act. The contractor shall indemnify, protect, and save harmless the City, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages, of whatever kind or nature arising out of or claimed to arise out of the alleged violation. The contractor shall, at its own expense, appear, defend, and pay any and all charges for legal services and any and all costs and other expenses arising from such action or administrative proceeding or incurred in connection therewith. In any and all complaints brought pursuant to the City's grievance procedure, the contractor agrees to abide by any decision of the City which is rendered pursuant to said grievance procedure. If any action or administrative proceeding results in an award of damages against the City, or if the City incurs any expense to cure a violation of the ADA which has been brought pursuant to its grievance procedure, the contractor shall satisfy and discharge the same at its own expense.

The City shall, as soon as practicable after a claim has been made against it, give written notice thereof to the contractor along with full and complete particulars of the claim, if any action or administrative proceeding is brought against the City or any of its agents, servants, and employees, the City shall expeditiously forward or have forwarded to the contractor every demand, complaint, notice, summons, pleading, or other process received by the City or its representatives.

It is expressly agreed and understood that any approval by the City of the services provided by the contractor pursuant to this contract will not relieve the contractor of the obligation to comply with the Act and to defend, indemnify, protect, and save harmless the City pursuant to this paragraph.

It is further agreed and understood that the City assumes no obligation to indemnify or save harmless the contractor, its agents, servants, employees and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the contractor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the contractor's obligations assumed in this Agreement, nor shall they be construed to relieve the contractor from any liability, nor preclude the City from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.

NEW JERSEY ANTI-DISCRIMINATION PROVISIONS
NJ.S.A.10:2-1 ET SEQ.

Pursuant to NJ.S.A. 10:2-1, if awarded a contract, the contractor agrees that:

- A. In the hiring of persons for the performance of work under this contract or any subcontract hereunder, or for the procurement, manufacture, assembling or furnishing of any such materials, equipment, supplies or services to be acquired under this contract, no contractor, nor any person acting on behalf of such contractor or subcontractor, shall, by reason of race, creed, color, national origin, ancestry, marital status, gender identity or expression, affectional or sexual orientation or sex, discriminate against any person who is qualified and available to perform the work to which the employment relates;
- B. No contractor, subcontractor, nor any person on his behalf shall, in any manner, discriminate against or intimidate any employee engaged in the performance of work under this contract or any subcontract hereunder, or engaged in the procurement, manufacture, assembling or furnishing of any such materials, equipment, supplies or services to be acquired under such contract, on account of race, creed, color, national origin, ancestry, marital status, gender identity or expression, affectional or sexual orientation or sex;
- C. There may be deducted from the amount payable to the contractor by the contracting public agency, under this contract, a penalty of \$50.00 for each person for each calendar day during which such person is discriminated against or intimidated in violation of the provisions of the contract; and
- D. This contract may be canceled or terminated by the contracting public agency, and all money due or to become due hereunder may be forfeited, for any violation of this section of the contract occurring after notice to the contractor from the contracting public agency of any prior violation of this section of the contract.

SPECIFICATIONS

This specification is intended to cover all of the following material of various size required by the Water Utility of the City of Vineland for a period of one year from date of award, with option for a second year. Contract shall be awarded in whole and not be awarded in sections.

METER PITS, COVERS & FITTINGS (Mueller, Vestal, Sigma & Trumbull)

If bidding other than Mueller, Vestal & Sigma please follow the instructions listed. At the time bids are returned the vendor shall attached a cross reference list to the proposal sheet with the manufacturer code names and or part/item numbers, and reference your bid product to correspond to the item number on the proposal sheets. Also copies of catalog pages and product sheets should also be attached to the bid package.

Failure to attach all necessary product information for the evaluation process will result in rejection of your bid.

If bidding other than Mueller products, vendor shall have two weeks after date of bid return, to demonstrate a sampling of all brass meter fittings listed in the proposal at the request of the Water Utility. **Failure to meet the time frame will result in rejection of vendor bid.** In the past vendors had delayed the evaluation process by not having the appropriate demonstration samples ready or showed up with samples not matching the items proposed on the proposal sheets.

Estimated quantities to be ordered by the Water Utility shall be as an “as needed” basis. Whenever quantities are provided, these quantities are estimates only. No guarantee or warranty is given or implied by the Utility as to the total amount that may or may not be purchased from the contract.

All brass should conform to ANSI/AWWA Standard C800-01 Underground Service Line Valves and Fittings. ANSI/ASTM B62-09 is the standard specification for composition Bronze or ounce metal castings which establishes requirements for an alloy having a composition of copper, tin, lead and zinc, used for component castings and valves, flanges and fittings. The common trade name of this alloy is 85-5-5-5; the correct identification is Copper Alloy UNS No. C83600.

General

Materials shall comply with the requirements of the Safe Drinking Water Act and other federal, state, and local requirements. Legislation is subject to change. Therefore, it is the manufacturer’s and purchaser’s responsibility to verify the current requirements of Federal, State, and local regulations.

As of **January 4, 2014** the Federal Reduction of Lead in Drinking Water Act will be in effect. Reference of Senate Bill No. 3874 “(B) not more than a weighted average of 0.25 percent lead when used with respect to the wetted surfaces of pipes, pipe fittings,

plumbing fittings, and fixtures.” All bidders should be aware of recent changes and show that the material will be in compliance of all new regulations and laws.

New lead-free definition and regulations for plumbing products, because NSF/ANSI Standard 61 requires that products comply with the lead-free requirements of the SDWA, all NSF 61 products falling into the scope of the legislation will be required to comply with the new 0.25% lead content by January 4th 2014.

NSF Standard Coverage:

NSF 61 evaluates all potential contaminants from drinking water products.

NSF 61-G evaluates potential contaminants and weighted average lead content of $\leq 0.25\%$

NSF 372 evaluates products for weighted average lead content of $\leq 0.25\%$

NSF/ANSI Standard 61 (Annex F) Standard 61 certified products made after July 1, 2012, will be constructed from no-lead/lead-free copper alloys to meet the (5 ppb) limit.

Material

Castings - Materials in contact with portable water shall be made from copper alloy No. C83600. In accordance with the chemical and mechanical requirements of ANSI/ASTM B62-09 for composition bronze or ounce metal casings or ASTM B584-12A for copper alloy sand castings for general applications. This alloy contains nominally 85% copper and 5% each tin, lead and zinc.

Component parts - Component parts such as fasteners, seals, and packing may be of other materials selected for adequate endurance, corrosion resistance, and strength.

All pentagon bolts that are attached to the meter lids shall be of the standard size of (27/32).

Lifter worm lock, all locking lids should be of the worm type lock. The lock has a hard cast iron nut that rotates and applies a screw jack action between the lid and cover to break any seal of ice or dirt. The bolt is constructed of forged silicon bronze and features a pentagon bolt head. This bolt acts as a lifter handle for the lid for easy opening and closing.

Meter pits and extensions shall be made of High Density Polyethylene. White interior surface for ease of meter reading. Black exterior surface to provide UV protection. Molded in thermo-plastic shelf and an anti-setting flange for stability.

For the 1-1/2” & 2” copper meter setters, they shall have a lock wing ball angle valve. An O-ring and a stainless steel seat gasket to ensure a positive seal under full flow of pressure. The stem/ball connection for strength to resist shearing or twisting. A fluorocarbon coated ball for smooth operation and double-stem O-rings supported in machined grooves for secure, leak tight operation.

Compression connections will be for the use of connecting Type K copper tubing. The nut and body shall be manufactured of cast bronze – ASTM B62-09. The gasket shall be made of molded synthetic rubber – ASTM D2000 4AA815 and the gripper band of stainless steel – Type 410.

Connection parts are pre-assembled permitting piping to be stabbed into connection for fast, easy assembly.

Sealing gasket is totally confined to prevent cold flow or creep either of which could cause future leakage. Hardened stainless steel gripper band securely grips the pipe as its concave shape is compressed by the sealing gasket. This part provides the connection with high resistance to pull out, which could result from line pressure, back filling, ground settlement or accidental disturbance from ditching equipment. Gripper band overlaps itself to prevent cold flow of the gasket into the cavity under the gripper band.

The nut bottoms on a shoulder eliminating the need for a torque wrench in assembly. This also provides a visual final check to assure the connection is properly aligned. The interior surface of the nut, including threads, shall have a baked-on fluorocarbon finish to reduce assembly friction and prevent gasket twisting or snaking while being compressed.

The Mueller 110 compression connections has been used successfully at the Water Utility for many years on the corporation valves, curb valves, service couplings and fittings that are currently in its warehouse inventory. In trying to save money, time and warehouse space, the Utility wants to incorporate meter valves and meter setting materials with the Mueller 110 compression connectors. It would be of an advantage for the Utility to keep in stock one type of compression connector that can be interchangeable between its entire inventory of brass service and meter pit fittings.
